ONE-STOP SOLUTION FOR DELEGATES

Forum tracking & Vote management with **Senate**

Average participation rate is less than 5-10% ...

Delegation is the way to decentralized governance

As a steward with lots of GTC delegated to me too who is actually trying to put as much of my free time as possible reading through proposals and voting and keeping up to date with what's happening I find this really unfair.

@avimeyers

This week at [@flipsidecrypto](#) governance was packed:

- 19 votes for the awesome folks [@optimismP](#), [@MakerDAO](#), [@AaveAave](#), & more
- In depth govy data analyses for [@osmosiszc](#)
- [@SushiSwap](#)
- Maker delegate open office hours

Linda Xie
@ljxie

Would love to see term limits & delegation cycles for DAO governance. This ensures delegates reconsider if they want to continue contributing & token holders reconsider delegation. Otherwise it's probably going to be many zombie delegates years from now. Also brings in new voices

But its hard for delegates to keep up their work now ...

Problem

Manual admin work to track voting activity and stay updated across various forums

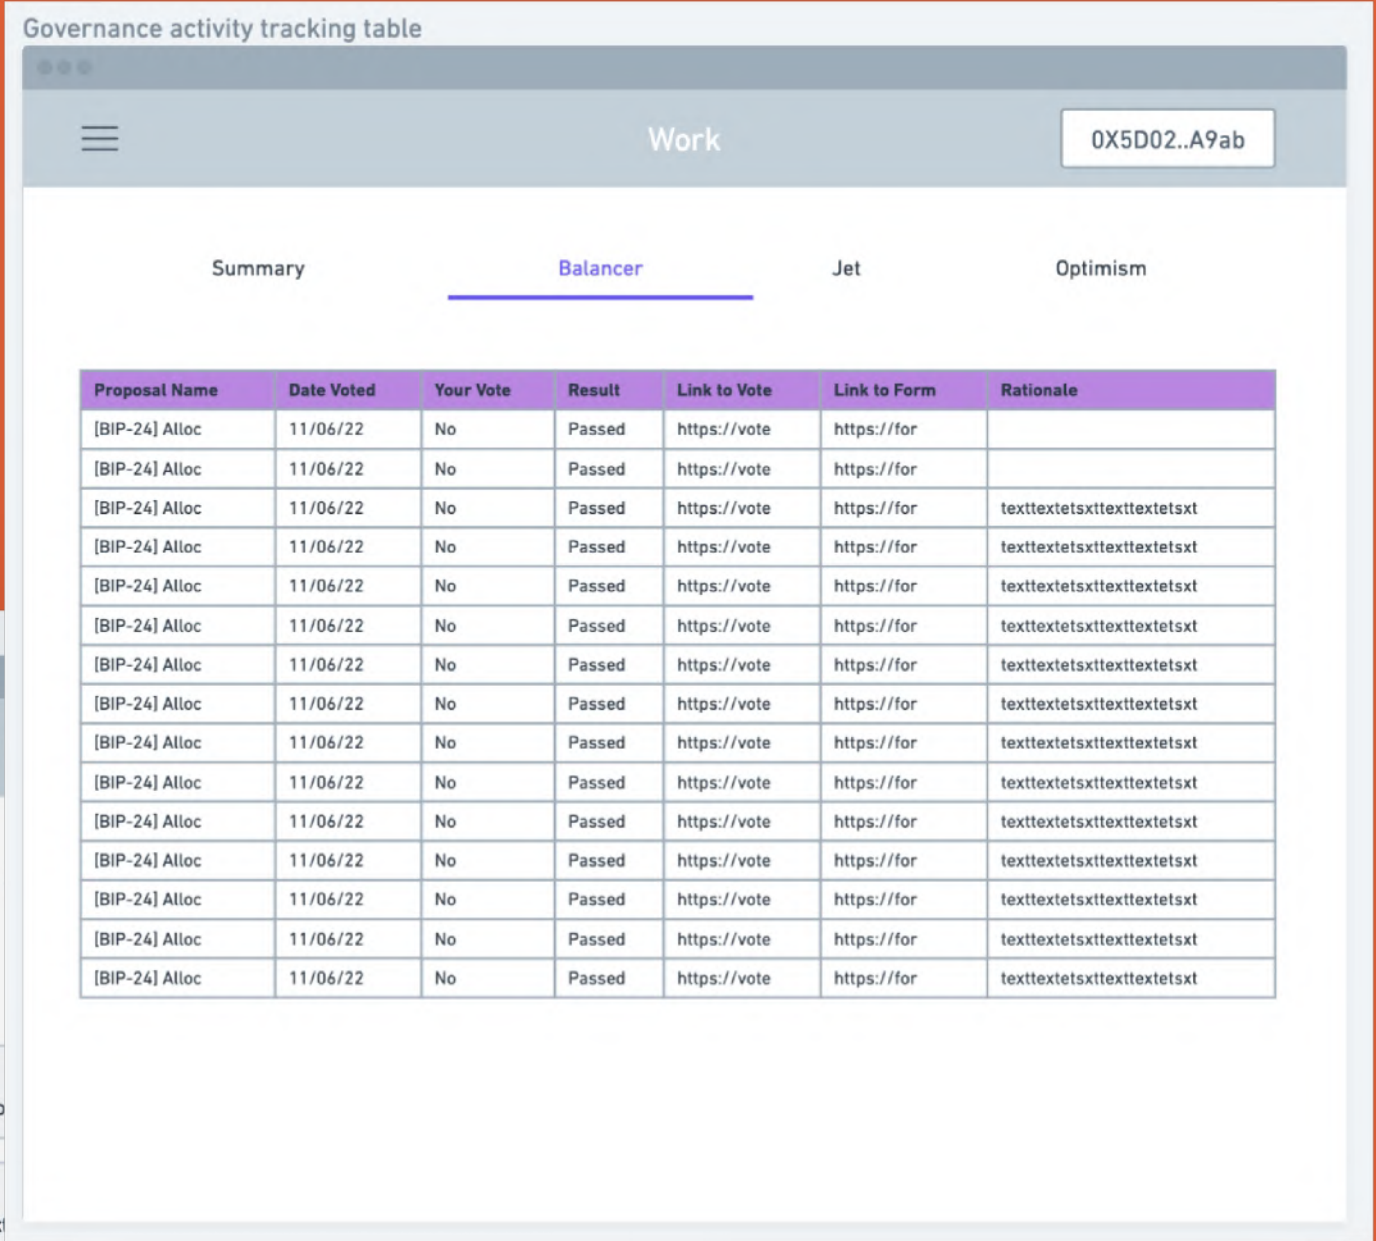

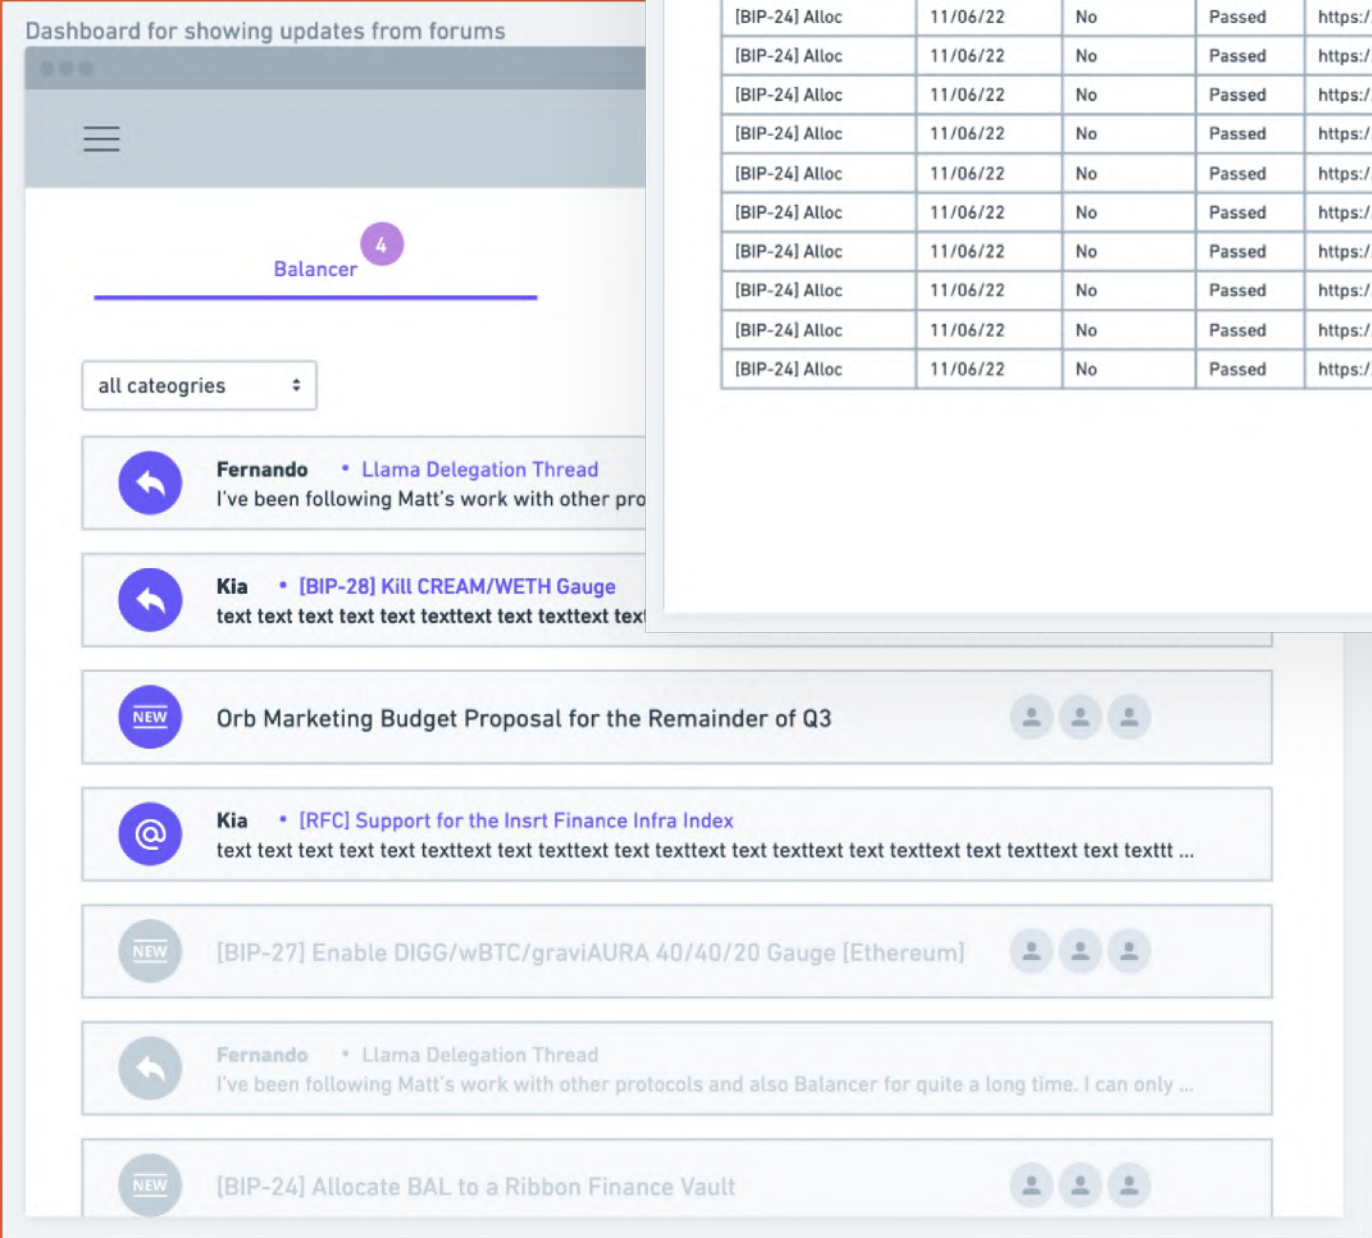

Solution

- ✦ Automated voting tracker
- ✦ Aggregated dashboard for multiple forum updates
- ✦ Real time proposal tracking

Product

Automation to track voting activity using Senate's voting tracker.

Stay up-to-date with current DAO affairs with Senate's forum aggregator

Pitch

Senate

DEMO

Future Plan

- ✦ Analyse feature for delegates gov activity (+ API)

- ✦ Kanban board to track each delegate-group members' activity

- ✦ Integrations with Discord, Twitter to auto-update gov activity

- ✦ Delegates' revenue graph for each protocols
